MBA Class of 2020

FORTUNA ADMISSIONS HBS Deep Dive Analysis – MBA Class of 2020

The MBA Admissions team at Harvard Business School is surprisingly small. A dedicated team led by HBS '13 graduate Chad Losee covers regions of the US and the rest of the world, traveling relentlessly to deliver information sessions, give company presentations, meet with enquiries and catch up with alumni. When back in Boston they host campus events, webinars and Peek Weekends. And from September onwards they start reading, and reading, as they look to identify the habits of leadership, analytical aptitude, and engaged community citizenship that are the shared characteristics of each successful HBS admit.

Every year, over 9,000 candidates submit applications for a place in the MBA program of the world's most famous business school. The 930 successful admits to HBS bring a mosaic of perspectives and are demonstrably making a positive difference – whether through academic pursuits, in their professional careers, or in community engagement.

Academic excellence is a must – the average GPA of the Class of 2020 was 3.70, with a GMAT average of 730. Evidence of your leadership potential can be expressed in myriad ways and brought to life by recommenders or in your own words. And the respect for others through supportive collaboration, both teaching and learning from peers, anticipates the essence of the Harvard MBA experience.

Reading through the MBA Class Profile that Harvard Business School publishes each year, you see a high-level summary of the countries, pre-MBA industries and Undergraduate Majors that contribute to the different backgrounds and perspectives that make up an incoming class. It is hard to grasp just how diverse the HBS student body truly is. But in [writing up our Deep Dive Analysis for Forbes](#), and looking through the many hundreds of academic degrees from over 250 universities from 69 countries, and the thousands of professional experiences amassed at over 540 different companies, you realize what a remarkable feat Harvard MBA Admissions achieves each year to bring together brilliant minds, talented professionals, and compassionate citizens.

The Fortuna Admissions team has worked with many successful admits to HBS and we witness first-hand the academic trajectory and professional path that applicants have taken. We thought it would be worthwhile to identify as many profiles as possible in the MBA Class of 2020 to better understand the diversity of experience that Harvard attracts every year and the colleges and companies that help applicants find a place in Boston.

In this Deep Dive Analysis, you will find the profiles for 893 of the 930 students in the Harvard MBA Class of 2020.

- Representing over 95% of the cohort, this is the most detailed analysis of an HBS MBA class ever published.
- Among more than 250 academic institutions in the US and the rest of the world, we've calculated the top feeder colleges and most popular degrees/majors.
- We've also identified many hundreds of full-time positions that HBS admits pursued prior to starting the MBA, with a comparison of the best-represented employers and most popular job titles.

As we emphasize [in this Fortuna video](#), the Harvard MBA Admissions Team is looking to assess the positive impact you have had – at school, at work or in the community. They want to find out who you are, not simply what you've done. So, beyond the Ivy League, MBB, Goldman and Google, the application is the opportunity to share your own unique story and values.

For every admit who attended undergrad at U Penn or Dartmouth there were others from Princeton and Columbia that did not make the cut. And though plenty have Bain, Morgan Stanley and Blackstone on their resume, other strategy consultants, investment bankers and PE analysts failed to stand out.

We hope you find this deep dive into the Harvard MBA Class of 2020 insightful and inspiring. Feel free to [reach out to the Fortuna Admissions team](#) to assess your chances of admissions success.

FORTUNA ADMISSIONS Feeder Colleges – Harvard MBA Class of 2020

37% of the HBS Class came from these 14 undergraduate institutions.

FINDINGS:

- Almost 1 in 5 HBS admits did their undergraduate at Harvard, U Penn, Stanford, Yale or Princeton.
- 24 undergrad institutions had 10 or more admits, and these accounted for 49% of total admits to the class.
- 132 institutions had 1 admit, and 83 of these were non-US institutions accounting for 15% of the class.
- Among the 8 Ivy League Colleges, which between them made up 23.2% of the class, Harvard leads the way with 5.2% of the MBA Class of 2020.

- Economics is the most popular undergraduate degree or major for 7 of the top 8 feeder colleges to HBS. Only Stanford had more undergraduates who studied Science, Technology and Society (6) and Human Biology (5).
- UPenn had the most Finance undergraduates, and Dartmouth the most History undergraduates (4).
- Among the 23 admits from Duke were majors in Chinese Studies and Biology, Philosophy and Mechanical Engineering, Neuroscience and Global Health, Diseases, Demographics and Determinants.

The next 27 institutions contributed to 25% of the Class, with 5 - 13 students each.

FINDINGS:

- The United States Naval Academy had 12 admits versus the 7 from the US Military Academy West Point.
- The prestigious Indian Institutes of Technology (IITs) collectively provided 12 members of the MBA Class of 2020.
- Studying Accounting or Aerospace Engineering were a popular undergraduate focus among the 11 admits from the University of Illinois Urbana-Champaign, while Anthropology and Archaeology featured among the 11 admits from Washington University in Saint Louis.
- Already having a Bachelors in Business Administration (BBA) didn't prevent numerous applicants from UC Berkeley, University of Michigan, UNC Chapel Hill and the University of Southern California going on to secure a place in the MBA Class at Harvard.
- The University of Kansas ranks #130 in US News but nevertheless provided 4 admits, while the University of South Carolina, which ranks #104, provided 3.

Though the Harvard MBA Class of 2020 has 37% international students, over a third of them studied in the United States for undergrad.

In the presentation of the MBA Class of 2020, HBS indicates that 37% of admits are international. The school includes in this classification both US permanent residents and US dual citizens.

FINDINGS:

- In our survey of 893 of the 930 profiles in the Class of 2020, only 24% attended an undergraduate institution outside the US. We identified a total of 127 US schools and 127 non-US schools, but with a much higher number of students per US institution. 83 foreign institutions had only 1 admit.
- The University of Cambridge had the most undergraduates outside the US with 7, studying a mix of Economics, Engineering, Law and Medicine. They were followed by McGill University with 6 undergraduates, across Engineering, Finance, Industrial Relations and Political Science.
- Universidad de Los Andes in Chile is a great pipeline to Boston, providing 6 students who studied either Economics or Industrial Engineering.
- India and the UK are the best represented international markets for undergraduate study with 24 admits, followed by Canada with 22, Brazil with 17, and Australia and Chile both with 9.

Of the 37 students we were not able to identify through LinkedIn, it is possible that a number are from outside the US, including several who studied in Asia, for whom we were unable to find their profile.

Country	Universities Represented	Total Undergrad Admits	% Among Int'l Admits
India	9	24	11.1%
UK	12	24	11.1%
Canada	9	22	10.1%
Brazil	7	17	7.8%
Australia	7	9	4.1%
Chile	2	9	4.1%
Argentina	4	8	3.7%
France	7	8	3.7%
China	4	7	3.2%
Japan	5	6	2.8%
Mexico	4	6	2.8%
Spain	6	6	2.8%
Germany	4	5	2.3%
Lebanon	1	5	2.3%
Turkey	4	5	2.3%

FORTUNA ADMISSIONS Feeder Companies – Harvard MBA Class of 2020

Half of admits (50.4%) had worked at one of 20 companies or military in at least one of their full-time jobs before joining the Harvard MBA Class of 2020.

Employer	Most Recent Full-Time Position	On Resume Since Graduation
McKinsey	41	82
BCG	36	55
Bain	27	52
Goldman Sachs	14	44
Deloitte	8	27
Morgan Stanley	8	26
US Navy	12	16
Accenture	8	17
Bank of America Merrill Lynch	4	17
JP Morgan	4	16
US Army	12	13
Google	9	13
Citi	1	12
Uber	11	11
Barclays	1	11
The Blackstone Group	5	8
PWC	3	8
Credit Suisse	1	8
Advent International	7	7
Apple	7	7

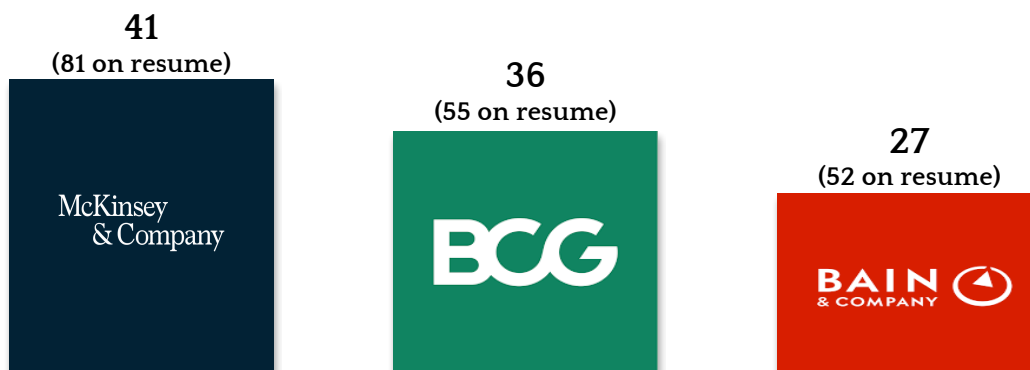

FINDINGS:

- Credentials from a blue chip consulting firm or big bank clearly help. The Fortuna Deep Dive reveals that 37.6% of the HBS intake had held a full-time position at McKinsey (82), BCG (55), Bain (52), Goldman Sachs (44), Deloitte (27), Morgan Stanley (26), Accenture (17), BofAML (17) or JP Morgan (16).
- Successful HBS applicants who started their careers in Investment Banking are far more likely than Strategy Consultants to make a career switch within two years of graduating from college. We identified 20 profiles that started in an IB Analyst position at Goldman Sachs and then switched to Private Equity or Venture Capital at companies such as KKR and Blackstone (11), Investment Management at the likes of the IFC and Berkshire (7), Consulting at BCG and Bain (2). Similarly, at Morgan Stanley, 14 started the early stage of their career as IB or Equities Trading Analysts and then within 2 to 3 years moved to PE or VC (8), with others pursuing finance-focused roles in FMCG, strategic and product manager roles in tech, or non-profit.
- The US Navy extended the college feeder performance of the US Naval Academy over rival West Point, with 16 HBS admits versus 13 from the US Army. In both cases many applied directly to business school with just a small handful transitioning to civilian life with positions at the likes of McKinsey and Apple or a move into health care before starting their MBA.
- HBS seems to prefer big tech to smaller tech companies, with strong showings on the resumes of the MBA Class of 2020 at Google (13), Apple (7) and Microsoft (7). For the 2017/18 admissions cycle, Uber was riding high as one of the emerging tech Unicorns and Harvard was clearly keen to welcome perspectives from 11 applicants to the Boston MBA classroom. It remains to be seen if this volume will endure, or whether future cohorts will include former employees from the now struggling WeWork.

MBB dominated among top consulting firms, which are by far the biggest feeder companies to HBS.

FINDINGS:

- McKinsey was by far the best employer to have worked for, sending 41 admits directly, while no less than 82 have McKinsey on their resume since graduating from college. 21% of the HBS class had worked at one of these three employers at some point.
- At BCG there are only three job titles among HBS admits - Consultant (26), Associate (6) and Senior Associate. Those from McKinsey included Business Analysts, Engagement Managers (7), a Chief of Staff, and a Risk & Operations Manager.

- Among the Big Four there's a strong showing by Deloitte - 8 admits came direct but 27 have the company on their resume. Accenture also scored well, with 8 direct and 17 since college.
- Smaller numbers of consultants came from Oliver Wyman (6), AT Kearney (3) and Keystone (2)

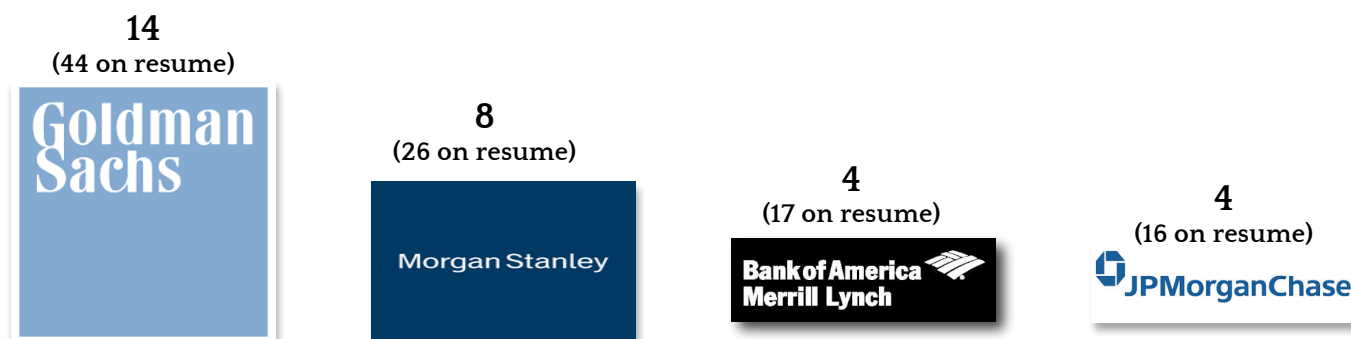

- Beyond banks and tech firms, the Fortune 100 was best represented by the Oil & Gas sector from ExxonMobil (8), Shell (5), Chevron (3), Saudi Aramco (3), and the GE-owned oil field services company Baker Hughes (3). GE itself provided 4 direct admits, and health care company Abbot Laboratories, Johnson & Johnson and Procter & Gamble were the most recent full-time employers for 3 each.
- Netflix (4) and Walt Disney (3) ensured that the Media & Entertainment industry had a share of voice in HBS case discussions.

Financial Services and Venture Capital / Private Equity are collectively the biggest feeder industry to Harvard Business School with 27% of the incoming class.

FINDINGS:

- 126 of the HBS admits we looked at worked at some point for Goldman, Morgan Stanley, JP Morgan, Barclays, BofA, Merrill Lynch or Citi. But only 32 were admitted directly out of one of these – from an HBS admissions perspective they are a good place to start out your career but then it is good to move on to gain additional depth and breadth of experience before applying to HBS.
- Beyond the big Investment Banks it is the dozens of private equity and investment firms that feature on the resumes of the Harvard Class of 2020, Before starting their MBA they had previously worked at Blackstone (8), Blackrock (7), Advent International (7), Carlyle Group (5), KKR (5), Warburg Pincus (5), TPG (4), Hellman & Friedman (4), Bain Capital (3), American Securities (3) and at fifteen other firms. At every VC / PE firm that provided 1 to 3 admits, they were the most recent employer prior to HBS.

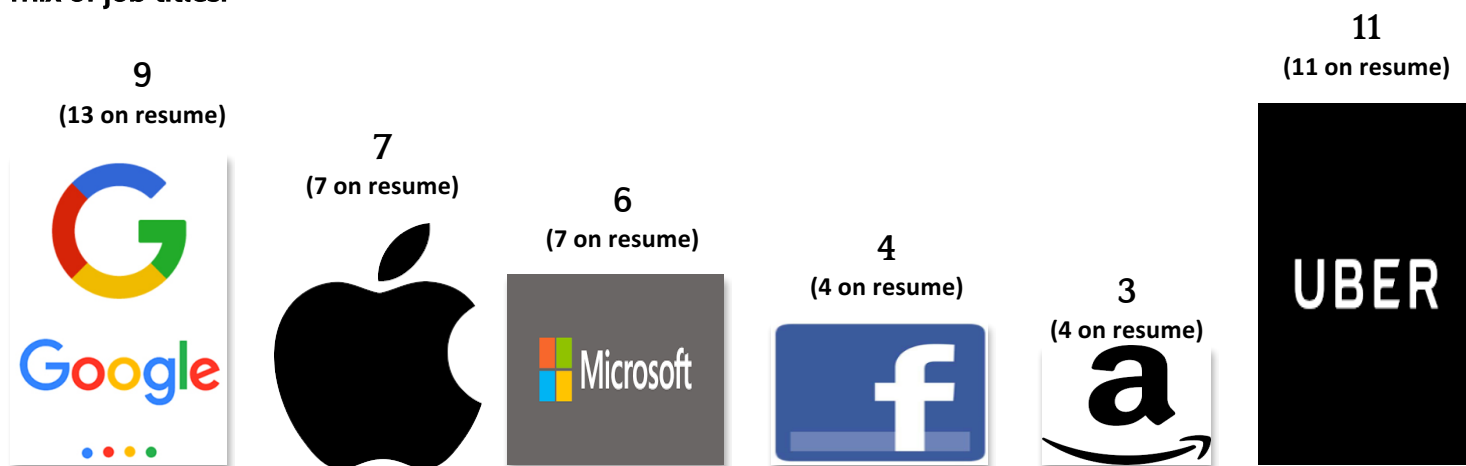

For an MBA Class that is more than twice the size of Stanford GSB, Harvard had fewer entrepreneurs.

- Beyond startup experiences during college or outside of their day jobs, only 21 among the 893 we identified applied to HBS from a full-time entrepreneurial venture.
- Almost all identified themselves as Founder / CEO, with fewer than one quarter in tech.

The best of the best from the Tech Giants continue to migrate to Boston, and bring with them an eclectic mix of job titles.

- HBS is eager to display the school's tech credentials, and over 10% of the HBS Class of 2020 brought Silicon blue-chip pre-MBA experience.

Employer	Most Recent Full-Time Position	On Resume Since Graduation
Google	9	13
Uber	11	11
Apple	7	7
Microsoft	6	7
IBM	2	7
Dropbox	2	5
Facebook	4	4
Jet.com	4	4
Amazon	3	3
OLX Group	3	3
Epic	2	3
Lazada	2	3
LinkedIn	2	2
Alibaba	2	2
Cure.fit	2	2
Gympass	2	2
Thumbtack	2	2
Youtube	0	1

- While the majority of Microsoft admits had job titles like Program Manager II or Mechanical Engineer, the intake from Google included a Lead Mentor at Google Launchpad Accelerator Program and a Deep Mind Engineer, while former Uber employees included a Head of Global Accessibility Policy and a Lead, People Analytics.

Good news for older candidates – some admits have 7, 8, even 11 years of work experience.

Close to 100,000 *Forbes* readers have viewed a Fortuna article we wrote [about older MBA applicants](#), and how they can leverage the experience they would bring to any MBA classroom. Sifting the stats in the HBS class offers a richer picture of what's possible. While the average years of work experience continues to be 4.7, several admits spent more than 8 years in the workforce, like the Westpoint grad who majored in nuclear engineering and ascended the ranks to U.S. Army Commander. But not all older candidates are military; there's the Spanish & Sociology major from Vanderbilt who hails most recently from Facebook. Or the Architectural Engineering major from U of Texas who spent over 8 years at Turner Construction Company.

What it takes: Fusing credentials with a captivating story.

Take the Greek mathematician and professional handball player with a Ph.D. in Education who's passionate about helping kids learn statistics using digital games. While much of her career is at the intersection of tech and education, she found the time to create a startup in the hospitality industry. Or the French and Film major at University of Nottingham whose post-college career includes stints in healthcare (Babylon Health) as well as consulting with Strategy& and finance at PwC. Then there's the Boston U grad coming from the Boston Mayor's office after a White House stint as a policy advisor for intergovernmental affairs.

In our video strategy session, [What HBS Really Wants](#), Fortuna's Karla Cohen, a former Associate Director at HBS quipped that staying awake was her biggest challenge at application review time at HBS. Says Karla, "Once you've reached a certain level of exceptionalism in terms of being brilliant, dedicated and driven, it's about your story."

FORTUNA ADMISSIONS - INSIDER'S TOP TIPS FOR APPLYING TO HARVARD BUSINESS SCHOOL

By Malvina Complainville

Malvina worked as an Assistant Director at Harvard Business School and led the Programs and Communication team, developing career development programs for HBS students. In this capacity, Malvina provided hundreds of hours of one-on-one career coaching to HBS students. In addition to this experience, Malvina was head of Talent for the Luxury Products Division at L'Oreal USA and was responsible for full-time and intern MBA selection, as well as designing and heading the Marketing Management Development Program for Luxury.

Tip #1 - Stand out from your peer group

Given the thousands upon thousands of candidates that HBS gets to choose from, successful candidates are those who manage to show how they stand out from the crowd. The HBS admissions team puts a great deal of effort into crafting a diverse and dynamic classroom, with individuals who will bring perspective and experience that is different from their fellow classmates. Candidates who have strong experience but whose profile seems undifferentiated from the hundreds or thousands of other candidates from the same sector are not going to make the cut. So give some deep thought to what is unique about your background and about your potential contribution to the program. If you can convince the admissions team that you have a truly unique profile, you will have a much better chance of succeeding. If you have a common profile and have some months or years before you plan to apply, think about how you could gain some differentiating experience that you will be able to highlight on your application.

Tip #2 - Showcase your leadership

Leadership is at the core of the Harvard experience. HBS is known as the school for general management training, specifically developing leaders who will "contribute to the well-being of society." The admissions office gives greater weight to leadership experience, and less weight to intellectual horsepower than some other top schools. So when applying to HBS, make sure your leadership experience comes across prominently, not just as a one-off, but as a pattern of leadership that can be demonstrated at different stages of your development. This leadership experience can come from your professional work experience, academics, hobbies, extracurricular activities and community work. Before you sit down to work on your Harvard application you need to take the time to identify instances from all aspects of your life that point to your ability or instinct to lead. You should also touch on your future leadership role in your essays and interview. What positive impact will you have on your chosen industry?

Tip #3 - Articulate a clear, ambitious and realistic career vision

Reflect on how your career vision aligns with HBS's values. Like other business schools, HBS discusses in detail their values on their website and in social media so make sure you are clear on what these are. Your career vision should be detailed, with short-term goals and long-term goals. It should be ambitious and achievable. And if it seems to you that west coast rival Stanford GSB has cornered the market in careers that change lives and change organizations, think again. Harvard is equally interested in finding out what impact you intend to have on an institution, an industry and the world. You should also think of two different paths that could lead you to your long-term career goals; this gives you more flexibility if one of your short-term goals prove challenging to achieve.

Tip #4 - Spend time fine-tuning your resume

The resume is often the first element that the file reader will review, so it needs to pack a punch. And with Harvard now down to only one optional essay your resume has never been more important. Make sure that the strength of your credentials comes across very strongly. Highlight your achievements and the impact you had in your roles. Quantify your achievements and impact with specific numbers wherever possible. HBS is looking for candidates on a rapid career trajectory, so make sure your evolution (promotions, increasing scope of responsibility, etc.) is clearly demonstrated. Remember that people who are not from your industry may be confused by jargon or acronyms so avoid these. You may want to write a short description under

each company if the admissions team might not be familiar with it; this is especially important for work experience abroad. In general, use action verbs and remove passive sentences or phrases. HBS has a strong preference for a one-page resume. You may want to consider adopting the HBS resume format. This will make it easier for Admissions to read your resume, as they will be familiar with the style and layout, and if you are accepted, you will have one less thing to do when it is time for resume writing time.

Tip #5 - Demonstrate strong communication skills

Class participation makes up 50% of the student grade. You are expected to speak up confidently and participate actively in class. The case method requires that you listen carefully to the discussion unfolding in the classroom and be prepared to jump in and share an insightful point in a clear and concise manner. In your application, you should think of how you can showcase your strong communication skills – for instance, discuss your success presenting in public and engaging in debates.

Tip #6 - Coach your recommenders

Recommendation letters are extremely important to HBS admissions. They place a great deal of weight on who has written the letter – more so than many other schools. It is important to have a really detailed letter that strongly champions your case for admission, with specific examples that are clearly personal to you – spend some time with your recommenders discussing the strengths they could highlight and the examples they could use. HBS also places great importance on how the recommender compares the candidate to his or her peer group, even to other candidates that the recommender has written for in the past. This is of particular importance for those applicants coming from a traditional feeder sector to business school, such as consulting or financial services. With competition from so many other individuals with comparable experience, Harvard is looking for the best of the best so benchmarking your performance is useful to them.

Tip #7 - Take advantage of the open essay

Consider the essay an important opportunity to tell your story and show how you are different from the other applicants. HBS will have your resume, application and recommendation letters so do not repeat information that the school can find elsewhere, otherwise your essay will be quickly passed over. Do not just expound further on professional accomplishments that are (or should be) in your resume. Think about what else in your profile, history and experiences is of relevance to HBS while avoiding redundancy. The HBS essay has no word limit, however, remember the school appreciates conciseness. Essay writing should be to the point, stay away from flowery language, and instead use business-writing style. When writing this essay remember that HBS is looking for individuals who are innovative thinkers. They do not want cookie-cutter candidates, so do not try to portray what you think HBS is looking for. Show that you have your own ideas.

Tip #8 - Prepare for your interview

The HBS interview is professional and formal; in the course of 30 minutes, the interviewer from the HBS admissions office will probe areas of your application with pointed questions and follow up questions. You should know your resume inside and out. Be ready to discuss at length the reasons for your career moves and what you achieved in each position. Your answers will naturally raise follow up questions, so only raise topics you are comfortable discussing further. The interviewer will be looking to evaluate your interpersonal skills, cultural fit with HBS, confidence (but not overconfidence), and what you will bring to the program. Try to show the individual that you are beyond what they know about you already. Convey your individuality.

Tip #9 - Authenticity in the post interview reflection

In addition to the application and the interview, HBS has a unique “post interview reflection.” Interviewed applicants are required to write a letter within 24 hours of their interview. HBS does not provide a word count for this but again, being concise is important. The point of the 24-hour deadline is that the school wants you to be spontaneous and authentic: the piece you submit should not sound like it was written before the interview. Your letter should be based on the conversation you had and is your opportunity to communicate something that you didn't have the chance to say, or even to correct something that you think didn't come across quite right.
